"MIRACLE" BUSH CHERRY—This new bush cherry, illustrated above as it blossoms in the springtime, is the result of 40 years cross breeding. The fruit is large and delicious to eat from the bush and makes a wonderful jam of superb flavor and richest color imaginable. The bush branches from the ground up and is literally covered with its delicious fruit all along the full length of the twigs and branches, just as it is covered with attractive snow-white blossoms in the spring. The blossoms are followed by silvery green foliage, turning to rich red and gold in the fall, so that the bush is always highly ornamental. They are superb as a hedge or foundation planting, or as specimen shrubs placed anywhere in the garden. The fruit of course may all be picked without the use of a ladder. They are hardy from coast to coast and from the Gulf of Mexico right into Canada. The strong plants I will send are bearing size and will produce many times their cost in delicious fruit each season.

\$1.50 each; 3 for \$3.75; 6 for \$6.50; 12 for \$12.00.

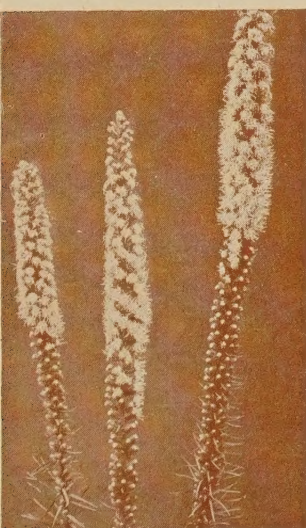

Dept. Library

PLANTAIN LILY—The variety I am offering, "Hostea Subcordata Grandiflora Alba," is the finest of all Plantain Lilies with highly ornamental foliage, and with large, snow-white, fragrant blossoms resembling Easter Lilies and almost as large. These Plantain Lilies are so hardy that they will grow anywhere, in sun or shade, with no care excepting to keep down the weeds. They are equally attractive in a wild garden, or in a border, or in a bed by themselves. Wherever planted they will take care of themselves. Do not confuse this variety, which is extremely scarce, with ordinary Plantain Lilies. Bloom Aug.-Sept. Strong flowering size plants, **75c each; 3 for \$2.00; 6 for \$3.50; 12 for \$6.50; 100 for \$50.00.**

AQUILEGIA (Columbine)—Every gardener loves the dainty Columbine. I have a grand assortment in a dazzling array of colors, in the finest new long-spurred hybrids, including all of the finest types originated to date. Assorted colors only, **3 for \$1.00; 6 for \$1.75; 12 for \$3.00; 25 for \$5.50; 100 for \$20.00.**

Liatris or Gayfeather

LIATRIS—Also known as "Blazing Star" or "Gayfeather." A superb hardy flower especially useful to florists. An excellent cut flower or garden subject, with beautiful feathery lilac flowers growing along a delphinium-like stalk. Nothing will attract more attention in the garden. The flower stalks are 3 to 4 feet tall, covered with flowers for a long period during mid-summer. They will thrive in sun or shade, in any ordinary garden soil. Should be planted in groups of 3 or more, planted 8 inches apart for best effect. **50c each; 3 for \$1.00; 6 for \$1.75; 12 for \$3.00; 25 for \$5.50; 100 for \$20.00.**

BLUE VERONICA—There are no more lovely BLUE flowers for the garden than these spires of brilliant blue. They are about 2 feet tall, hardy, continuous bloomers, and will grow anywhere. **3 for \$1.00; 6 for \$1.75; 12 for \$3.00; 25 for \$5.50; 100 for \$20.00.**

HARDY SWEET PEAS—They come up year after year without care, each plant covering several feet of trellis or low fence. Great quantities of flowers are produced every year. The flowers grow in "clusters," one cluster forming a nice corsage bouquet. Pink, Red, White; sold in assorted colors only. **50c each; 3 for \$1.25; 6 for \$2.00; 12 for \$3.50; 25 for \$6.00; 100 for \$22.50.**

Mixed Daffodils

A gorgeous mixture for spring planting. Last offering for the duration. **20 for \$2.00; 30 for \$3.75; 50 for \$6.00; 100 for \$10.75; 1000 for \$85.00.**

TRITOMA "PFIZERI"—More commonly known as the Torch Lily or Flame Flower, or Red Hot Poker Plant. The rich orange scarlet flowers are among the most unusual and attractive in the garden. They are always in big demand as cut flowers and are used extensively by florists to "point up" an artistic bouquet or basket of flowers. "Pfizeri" is the finest of the Tritomas and should be in every flower garden. Blooms August to October. **50c each; 3 for \$1.25; 6 for \$2.25; 12 for \$4.00; 25 for \$7.50; 100 for \$27.50.**

ROSE OF SHARON—These very beautiful hardy shrubs are covered with double rose-like flowers over a long period. The colors are Red, Pink, and White. Extra strong, 4 to 5 ft. specimens.

\$1.50 each; 3 for \$3.75; 6 for \$6.50; 12 for \$12.00.

DOUBLE PINK FLOWERING ALMOND—

This is in my opinion the most beautiful of the early flowering shrubs. The artistic pure pink blossoms are like pompon chrysanthemums and they are produced in the greatest profusion, as shown by the above illustration, the blossoms literally covering the shrub. There is nothing more beautiful. They are easy to grow and sub-zero hardy. **\$1.50 each; 3 for \$3.75; 6 for \$6.50; 12 for \$12.00; 25 for \$20.00; 100 for \$75.00.**

TULIP TREE—

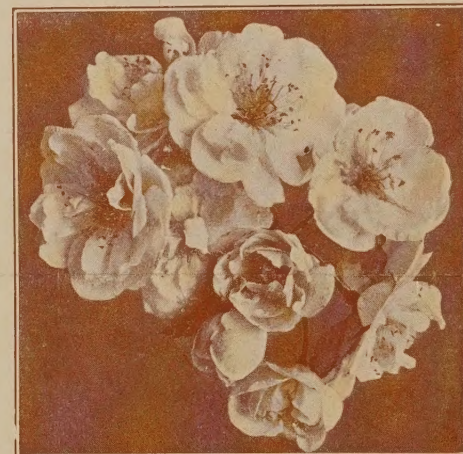

One of our finest hardy shade trees, belonging to the magnolia family, having attractive bluish-green foliage and bearing in May or June large greenish-yellow flowers, with an orange base, followed by long cone-shaped fruit. **Large, extra strong, fine beautifully shaped trees, \$1.50 each; 3 for \$4.00; 6 for \$7.50; 12 for \$13.50; 25 for \$25.00; 100 for \$85.00.**

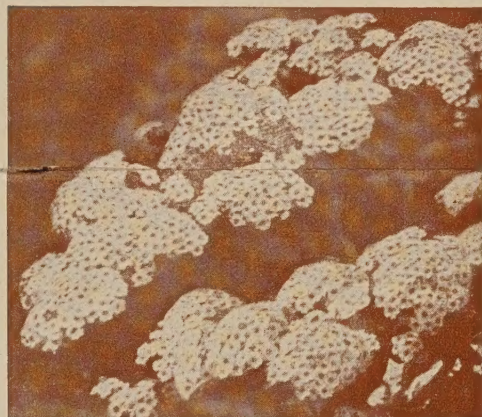

A Dogwood Tree

SPIRAEA "Van Houttei"—As will be seen by the above illustration, there is no finer shrub than this for a hedge or foundation planting, or for a specimen plant, as the branches are completely hidden with snow white flowers from the ground up. The foliage which follows the flowers is fern-like and attractive. **Extra large specimen plants, \$1.50 each; 3 for \$3.75; 6 for \$6.50; 12 for \$12.00; 25 for \$22.50; 100 for \$75.00.**

MOCK ORANGE—Extremely ornamental and showy. A rather large shrub that is literally covered with big sweet-scented snow white blossoms in late spring. **Huge specimens, \$1.50 each; 3 for \$3.75; 6 for \$6.50; 12 for \$12.00; 25 for \$22.50; 100 for \$75.00.**

SPIRAEA "Anthony Waterer"—This variety is equally as attractive as "Van Houttei" but the flowers are pink with a deeper eye. Fine big four year old plants. **\$1.00 each; 3 for \$2.50; 6 for \$4.50; 12 for \$7.50; 25 for \$14.00; 100 for \$50.00.**

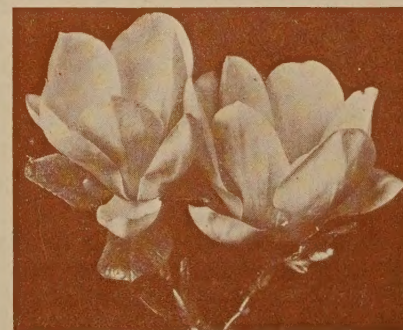

PINK LILY-OF-THE-VALLEY—Something entirely new. Just like the white ones, but in a delightful shade of lavender-pink. Excellent for planting in a shady spot. **\$2.50 a dozen; \$15.00 per 100.**

TRILLIUM GRANDIFLORUM—The Trillium is a native woodland plant known as wood-lilies or "Wake Robin." Grandiflorum is the largest and finest of all, producing their delightful star-like snow white blossoms early in the spring. They prefer a shady location and are fine for a shady nook in the garden, or for naturalizing in the woodland. When once planted they require no care, but come up each Spring and continue to multiply from year to year. Hardy anywhere. **3 for 85c; 6 for \$1.50; 12 for \$2.75; 25 for \$5.00; 100 for \$18.00.**

White Birch

MAGNOLIA SOULANGEANA—Our most showy spring flowering small tree, loaded with large, handsome, cup-shaped pink flowers. Very rare. Small trees **\$2.50 each.**

A Young Anoka Apple

FRUIT TREES

ALL FRUIT TREES, WHILE THEY LAST

\$1.50 each; 3 for \$4.00; 6 for \$7.50; 12 for \$13.50; 100 for \$75.00

"ANOKA" APPLE—SEMI-DWARF—Best for the Home Garden

Bears Fruit the First or Second Year after Planting.
Bears large crops of delicious apples EVERY YEAR.
An excellent Summer Eating Apple and a superb cooker.
Disease resistant and hardy even in the coldest northern states and up into Canada.
No other apple can combine the wonderful flavor, early bearing, and great productiveness of the Anoka Apple. The fruit is of good size and beautifully striped red. There is no other apple like Anoka. It is a **new** apple and the result of many years of hard work and thousands of crosses. It was the one selected as the culmination of all these efforts, as combining all of the best points of hardiness, early bearing, productiveness, and superb flavor. Being of medium dwarf habit it is the best apple for the small garden. The size, color, and flavor of Anoka Apple are sure to make it a great favorite. In addition to its abundant crop of delicious fruit, nothing excels it in beauty when it is loaded down with blossoms in the Springtime. It's an investment, not an expense, as every tree will pay for itself several times over each year in delicious fruit. Husky trees, ready to bear—**\$1.50 each; 3 for \$3.75; 6 for \$6.00; 12 for \$10.00.**

✓ **"RED DELICIOUS" APPLE**—The Red Delicious Apple is so well-known that it is hardly necessary to say anything about it. It is the one fancy apple that outsells all others on the high class fruit stands. Color red, fruit sweet, juicy, and delicious. Handsome spring blossoms. Hardy and very productive at an early age. Strong 4 to 5 foot, 5 year old trees.

✓ **"GRIMES GOLDEN" APPLE**—Excellent yellow apple of large size, crisp and juicy and mild sub-acid flavor. Handsome spring blossoms. Hardy anywhere. Strong 4 to 5 foot, 5 year old trees.

✓ **"STAYMAN'S WINESAP" APPLE**—The favorite winter apple, with handsome firm fruit of the most delicious flavor, slightly tart and full of juice. Excellent eating or cooking apple. Handsome spring blossoms. Hardy anywhere. Strong 4 to 5 foot, 5 year old trees.

✓ **MULBERRY**—The Mulberry is one of our most attractive trees. It produces great quantities of delicious berries, much like a coreless, seedless blackberry. Aside from producing a delightful shade tree and providing great quantities of berries for the table, they will bring many attractive birds to your garden as the fruit is a favorite "tidbit" of all sorts of birds. I have a limited supply of nice sturdy, 4 to 5 ft. trees.

NUT TREES

ALL NUT TREES, WHILE THEY LAST

\$1.50 each; 3 for \$4.00; 6 for \$7.50; 12 for \$13.50; 100 for \$75.00

✓ **WALNUT TREES—\$250,000 for 80 acres of Walnut Timber.** Very few people realize the timber value of walnut trees, yet during the last World War a farmer in Iowa sold his 80 acres of Walnut Timber from trees planted 40 feet apart for TWO HUNDRED AND FIFTY THOUSAND DOLLARS. He had meantime been making a living from them selling the nuts by the carload in the Chicago market. Even during peace times, as high as \$450.00 has been paid for a single tree. I have for many years been advocating the planting of spare land in Walnut trees for future profit. Once planted they require little or no care. For the home garden there is no finer looking or more useful shade tree. It is therefore a three purpose tree; while it is developing into a beautiful shade tree and producing luscious nuts, it is also increasing in timber value from year to year. The timber is used for gun stocks and furniture and therefore demands a high price during war times; and it is also scarce enough to demand a high price during peace times. So whether you wish one or more shade trees for the home garden, or have some spare land somewhere and have an eye to the future, I again recommend "PLANT WALNUT TREES." FINE 4 to 5 foot sturdy, 5 year old trees.

✓ **BLIGHT RESISTANT CHESNUTS**—When I first came to Long Island 35 years ago it abounded with huge stately Chestnut trees, nature's most magnificent shade trees. Then the blight came, one of the many foreign pest importations, and as a result every last chestnut tree was wiped out, not only on Long Island, but throughout the entire country. The United States Department of Agriculture thereupon began a very thorough research to determine what might be done about it. The result was the discovery in China of a blight-resistant Chestnut Tree, producing nuts of exceptionally fine flavor. I am pleased to be able to offer this year some of these blight-resistant Chestnut Trees, four years old.

✓ **BUTTERNUT TREES**—A tree of the walnut family with elongated nuts that have a delicious sweet kernel. They are also often pickled when young. The hardwood is valuable and is used for interior trim. The tree is highly ornamental and interesting.

SHADE and ORNAMENTAL TREES

WHILE THEY LAST, \$1.50 each; 3 for \$4.00; 6 for \$7.50; 12 for \$13.50; 100 for \$75.00

✓ **WHITE BIRCH**—Winter or summer, the snow white bark of the Canoe Birch is a delight in any garden or landscape. For best effect they should be planted in groups of several trees a few feet apart, the number depending upon the space available. I have some fine, young trees available while they last.

✓ **KENTUCKY COFFEE TREE**—A specimen that is now 40 ft. high planted by me as a tiny tree 20 years ago, is the pride of my home garden. I have never known anyone who has seen it who was not fascinated by it. A full grown tree grows 100 feet high. The foliage is as artistic as the finest fern. It belongs to the Pea family, producing greenish white flowers in large clusters at the end of the branches, followed by heavy pods like lima beans, inclosing mahogany colored beans that take polish like a bead. Fine, shapely 5 year old trees.

✓ **GOLDEN RAIN**—One of our most beautiful and least known shade trees, loaded with panicles of flowers like Wisterias, only in bright yellow. Ornamental, hardy, little known. Strong 4 to 5 ft. trees while they last.

✓ **WHITE FLOWERING DOGWOOD**—Magnificent early spring flowering trees covered with white blossoms. They are also the most handsome of all the fall foliage trees, the foliage being the best to turn a bright red. Fine for sun or shade. Strong 4 to 5 ft. trees.

✓ **RED FLOWERING DOGWOOD**—Same as above, but with red flowers. The dogwood trees do not grow large and are therefore especially adaptable to the small garden. The Red Flowering Dogwood is one of our most beautiful flowering trees. Strong 4 to 5 ft. trees. Worth double the price asked for them. While they last.

✓ **WHITE FLOWERING BUCKEYE**—A fine shade or street tree covered with attractive white flowers, each cluster of flowers being a full bouquet. The flowers turn into the shiny polished Buckeye, carried by many as "lucky-pocket-pieces." Strong 4 to 5 ft. trees.

✓ **RED FLOWERING BUCKEYE**—Same as above, but with brilliant red flowers. These flower very young and the 3 to 4 ft. trees I am offering have already begun to blossom. They do not make as large a tree as the white flowering variety and are therefore more useful where a smaller tree is required for the home garden.

✓ **BLOOD LEAF DWARF ORNAMENTAL MAPLES**—Very ornamental dwarf growing trees, ideal as specimens for the small home garden. Blood-red foliage all year. Fine 2 to 3 ft. trees, while they last.

CRABAPPLES

One of our most beautiful early spring flowering trees. Blossoms highly fragrant.

\$1.50 each; 3 for \$4.00; 6 for \$7.50; 12 for \$13.50; 100 for \$75.00

In the Following Varieties

✓ **BECHTEL'S DOUBLE FLOWERING CRAB**—Best of all the flowering crabs. Large double luscious pink flowers, much like a pink rose. Strong 4 to 5 ft. trees.

✓ **FLORIBUNDA**—Bright pink buds, white flowers, yellow fruit. Robust 5 to 6 ft. trees.

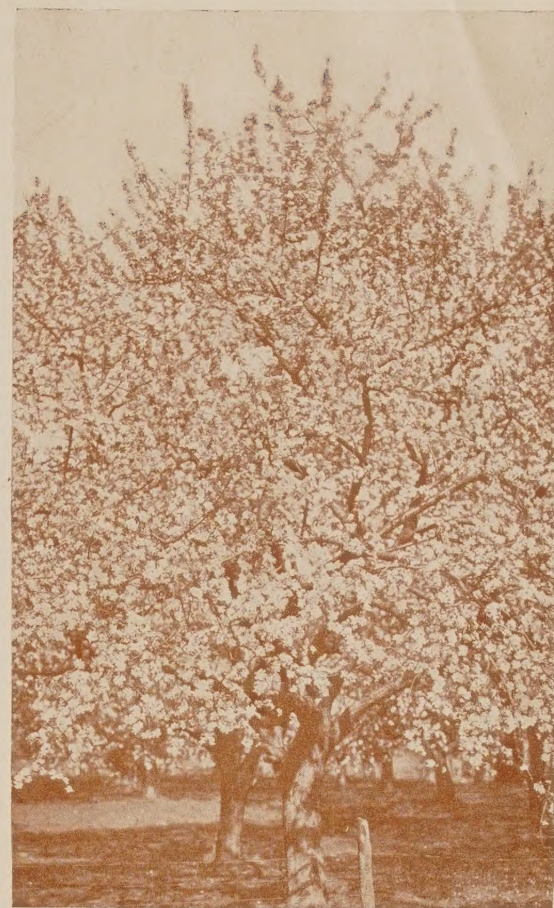

✓ **NIEDSWETZKYANA**—Red flowers, red branches, red leaves, red fruit. Fine 5 to 6 ft. trees.

✓ **RED FLESH CRAB**—Brilliant red flowers, red bark and red foliage tinselled silver underneath. Finest fruit of all. Strong 5 to 6 ft. trees.

✓ **SIBERIAN FLOWERING CRAB**—Large pink and white fragrant blossoms, followed by bright red and yellow fruit. Like all crabapples these are fine for jelly, or for pickling, or making cider, or for flavoring other jams or jellies. Very hardy in most severe climates.

A Young Anoka Apple Tree Bearing Fruit

A Full Grown Apple Tree in All Its Spring Glory.
A Full Grown Tree Will Produce Several Barrels of Apples Each Year.

Collections No. 4 and 5 may be had in clumps instead of single plants—including the free plants also in clumps—for double the collection price. Each clump contains several plants, and are worth much more than the difference.

ONE EACH ALL 6 COLLECTIONS—WITH 17 PLANTS FREE—\$22.00

THREE EACH ALL 6 COLLECTIONS—WITH 51 PLANTS FREE—\$60.00

FROM VERMONT—"I am inclosing order for Iris (42 plants) I bought some last year and year before and they are wonderful."

FROM OREGON—"Last year I bought 135 of your Iris plants and had a most gorgeous display of flowers this year."

FROM INDIANA—"I received an order of Iris from you last fall and they were the most beautiful Iris I have ever seen. Everyone admired them."

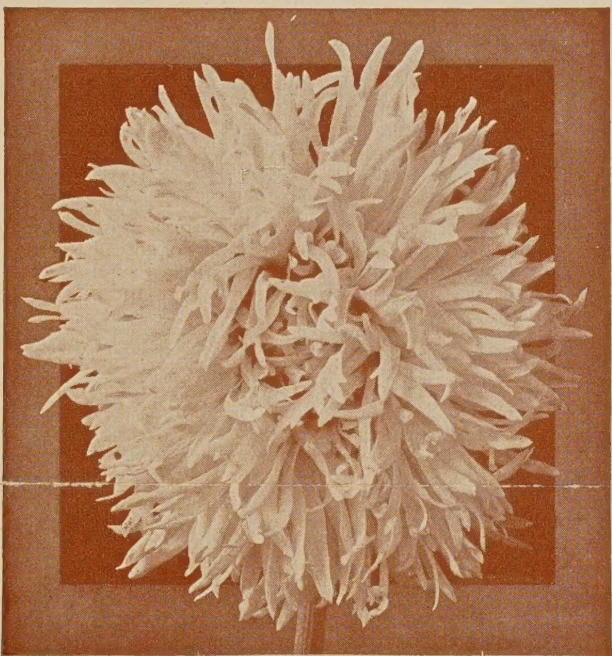

FROM TEXAS—"My order for the Summer Blooming Iris came in and were planted yesterday. They were the finest I have ever seen."

WHEREVER YOU ARE, NORTH, SOUTH, EAST, OR WEST, YOU WILL HAVE BETTER SUCCESS WITH WAYMAN PLANTS

**HARRINGTON'S
NEW PINK
HARDYASTER—**

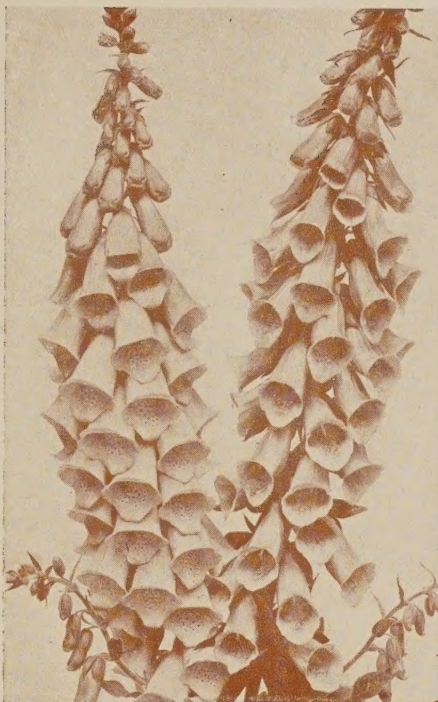

The finest of the pink Hardy Asters. Purest pink, a real beauty, and a profuse bloomer. **75c each; 3 for \$2.00; 6 for \$3.75; 12 for \$7.00; 25 for \$12.50; 100 for \$45.00.**

DOUBLE SHASTA DAISY "Marconi"—This is one of the most glorious of all flowers, both as a cut flower and for garden effect. It is a real "find" for florists. Large flowers, freely produced from early summer until killed by frost. **75c each; 3 for \$2.00; 6 for \$3.75; 12 for \$7.00; 25 for \$12.50; 100 for \$45.00.**

"MAYFIELD GIANT" SINGLE SHASTA DAISY—These Shasta Daisies are the largest and most gorgeous I have ever seen. Huge, stunning flowers 5 to 7 inches across, produced in the greatest profusion. Superb for cutting or garden effect. **50c each; 3 for \$1.25; 6 for \$2.00; 12 for \$3.50; 25 for \$6.00; 100 for \$22.50.**

GIANT FLOWERING FOXGLOVES—

Grandiflora Hybrids—Striking garden subjects; marvelous color range, all colors assorted. **50c each; 3 for \$1.25; 6 for \$2.00; 12 for \$3.50; 25 for \$6.00; 100 for \$22.50.**

HOLLYHOCKS in the modern style are not to be compared with the old-fashioned Hollyhocks of Grandmother's garden. There are no finer hardy plants than these showy, towering spires of delightful pink, mauve, maroon, red, scarlet, bright rose, salmon, yellow, white, etc. One stalk makes a huge bouquet. Strong plants, assorted colors, **50c each; 3 for \$1.25; 6 for \$2.00; 12 for \$3.50; 25 for \$6.00; 100 for \$22.50.**

SALVIA AZUREA (Blue Sage)—Extremely hardy, with delightful rich sky-blue flowers generously produced summer and fall. The illustration does not begin to do it justice, as there is nothing nicer where blue flowers are wanted. **50c each; 3 for \$1.00; 6 for \$1.75; 12 for \$3.00; 25 for \$5.00; 100 for \$17.50.**

RUDBECKIA PURPUREA—Hardy, free flowering, excellent for cut flowers or in the garden. Deep rose color. Bloom from July to October. Good for sun or partial shade, in any soil. **50c each; 3 for \$1.00; 6 for \$1.75; 12 for \$3.00; 25 for \$5.00; 100 for \$17.50.**

FINEST NEW EVERBLOOMING HARDY VIOLAS—This race resulted from Violets being crossed with Pansies, giving us the beauty of the Pansies, with the hardiness of violets, with flowers in bloom all summer and fall, until killed by severe frost. Some of them are larger and even finer than Pansies. Stock limited. All colors assorted while they last, **3 for 85c; 6 for \$1.50; 12 for \$2.75; 25 for \$5.00; 100 for \$17.50.**

ROBERT WAYMAN
Rare Flowering Plants
Bayside, L. I., N. Y.

March 1st, 1944

Dear Friends:

This "Advance Sale" Folder is sent out early for a definite purpose. It lists things that should be ordered **EARLY**. Many people usually think this is just sales talk and, notwithstanding my suggestion, delay sending in their orders and lose some of the plants as a result of late planting. Please remember that the safest time to plant things in the spring is while they are dormant. That means that you should **ORDER AT ONCE**. There is a double reason for this, when labor is so scarce. Orders received first will be shipped first. This is only fair to everybody. There will be from a few days to a week or more delay filling orders, but very little delay on early orders. No **RUSH** orders please. All will be filled in rotation. So sit down **right now** and send in your order.

This will be the last offering for the duration on most of these items in this list, as no new plants will be propagated excepting berries, fruit, and various food stuffs. Other items will be discontinued as fast as plants on hand are sold. War conditions make this necessary.

Our Spring Catalogue of Patented Roses, etc., will be mailed as soon as received from the printer, in 2 or 3 weeks. It will be our last offering of Patented Roses for the duration, as well as our last Spring Catalogue. The same advice regarding early ordering will apply to this Spring Catalogue when received.

Looking forward to an early resumption of more normal living conditions and with best wishes for a successful gardening year,

Very truly yours,

Robert Wayman

The Rare and Beautiful FRANKLINIA TREE

This excellent fall flowering tree has a history that is as unusual as the tree itself is beautiful and unusual. It was brought in 1777 from the banks of the Altamaha River in Georgia to Bartram's garden in Philadelphia. John Bartram, recognizing its extraordinary beauty and value, named it in honor of his life-long friend, Benjamin Franklin.

The original grove of Franklin trees was again visited in 1790, but from that day to this no one has seen these trees growing in the wild though many expeditions have searched the banks of the Altamaha for it.

Franklin's tree is beautiful in detail and marvelous in landscape effect besides blooming at a season when few shrubs or trees are in flower.

The slender trunk and graceful branches are so muscular and sinewy in appearance that one almost expects motion as under a greyhound's skin. The bark is smooth and dark gray, with wavering lengthwise markings of lighter color.

Each twig develops at its tip a cluster of buds of graduated size, like overgrown greenish pearls. Early in August the largest of these attain the size of marbles. Then the guard petal folds back, still retaining its first spherical form. From its shelter emerge four other petals, satiny snowy white, elaborately frilled and pleated. The snowy, frilly chalice, three inches in diameter, holds a sumptuous mass of orange-gold stamens and breathes forth a delicate, balmy fragrance.

Each flower lasts two or three days and then drops cleanly. There is a constant succession of bloom till hard frost. We frequently get the unusual effect of a tree clad in crimson autumn foliage and abundantly starred with white flowers.

The Franklinia begins blooming when not more than three or four feet high. Young trees under favorable conditions increase in height a foot or more each season. Specimens thirty feet high are known. It develops naturally with several trunks but may easily be trained to a single trunk by removing sprouts which start from the base.

Franklinia prefers full sun and has proven entirely hardy about New York and hardy in favorable locations about Boston. It is an especially desirable tree for the small, intimate garden, loved and lived in. It is a charming lawn tree and the grass may be allowed to grow closely about its trunk. It also thrives when planted by pools, lakes, and streams. Its light elegance of form and color contrasts exquisitely with the dark green of conifers.

I have a few choice 3 to 4 ft. specimens of this unusual tree ready for delivery this fall and next spring at **\$3.75 each; 3 for \$10.00**.

Order early as the supply will quickly be exhausted.

REGAL LILY—This Lily is well named, as it is a flower of Regal Splendour. The flowers are of immense size and great beauty, being of snowy whiteness, much like an Easter Lily, but with an attractive yellow flush at the centre, and the outside flushed soft pink. It is delightfully perfumed, having the sweet fragrance of the Jasmine. The flower stalks are 3 to 4 feet tall and one stalk will often make a complete bouquet. And it is one of the hardiest of all Lilies and easiest to grow. Flowers in July. Flowering Size Bulbs—**50c each; 3 for \$1.00; 12 for \$3.50; 25 for \$6.50; 100 for \$25.00.**

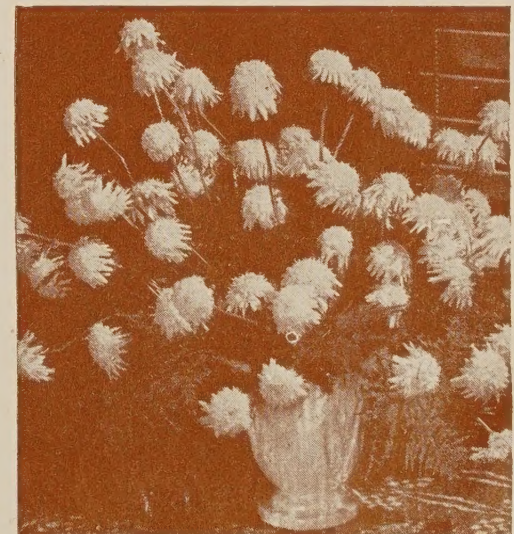

SUNSET LILY—One of the most spectacular of all Lilies, often producing 15 to 20 flowers to a stalk, up to seven feet high when established. Color deep orange, spotted maroon, with tip of petals scarlet. Hardy in sun or partial shade. July Flowering.

ELEGANS LILY—The finest rock garden or bedding Lily, just 12 to 13 inches tall, with attractive saucer-shaped blossoms facing up, giving perfect bedding effect. Profuse bloomer, red, spotted maroon.

DOUBLE TIGER LILIES—An unusual **DOUBLE** form of the Tiger Lily, with large attractive rosette-like flowers. Very handsome and the double form is quite rare.

PRICE FOR THESE 4 LILIES: 50c each; 3 for \$1.00; 12 for \$3.50; 25 for \$6.50; 100 for \$25.00

3 EACH OF THE ABOVE FOUR LILIES \$3.50; 12 EACH \$12.50; 25 EACH \$24.00; 100 EACH \$90.00

WHITE SWAN DOUBLE DAISY—Something new and unusually beautiful. Solid double pure snow-white flowers on good wiry stems from 18 to 24 inches long. Magnificent for cut flowers and for landscape or garden effect. Used extensively by the florist trade. **50c each; 3 for \$1.25; 6 for \$2.00; 12 for \$3.75; 25 for \$6.25.**

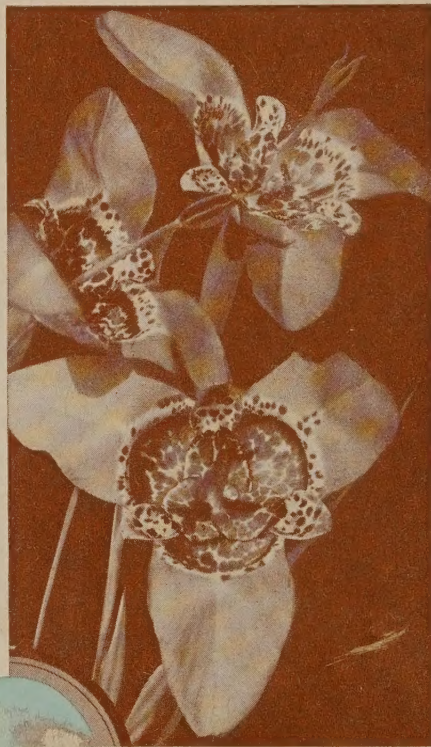

CELESTIAL FIG TREE—Most gardeners are not aware that figs are hardy and will grow like the one above right in our northern states. Even if the tips are killed back by severe freezing weather they will make new growth and produce huge quantities of fruit all summer long. If you have never eaten fresh figs, picked right off your own trees, you have a pleasant surprise coming to you; and as a desert, sliced and served with cream, there is no more delicious delicacy. The illustration above shows a tree after the leaves have dropped in the fall and a crop of fruit is still hanging on the tree. I have this season the finest and strongest fig trees I have ever been able to offer. They are ready to bear. **\$1.50 each; 3 for \$4.00; 6 for \$7.50; 12 for \$13.50; 100 for \$75.00.**

TIGRIDIA GRANDIFLORA HYBRIDS—See illustration below. Also known as “Shell Flowers” on account of their shell-like substance and again as “Mexican Tiger Flowers” because of their spotted throats and the fact that the original species was first discovered in Mexico. The blooms, which are 3 to 5 inches in diameter, are sure to be the most showy flowers in the garden. They are entirely unlike any other flower. The bulbs I am now offering are the finest I have ever been able to offer, both in color-range and size and quality of bulbs. They are simply superb. The colors are rich reds, orange, pinks, yellows, whites, and various blends of these colors.

Most of them have the beautifully spotted throat which is one of the features of the flower; in others this spotted throat is absent and the flowers are of uniform color throughout.

They are handled much like gladiolus, planting them outdoors as soon as the weather permits in the spring, about 3 inches deep and 4 to 6 inches apart.

**8 FOR \$1.00; 18 FOR \$2.00
30 FOR \$3.00; 100 FOR
\$9.00; 1000 FOR \$80.00**
